

## 2025 Solar Gardens Prospective Product Content LABEL<sup>1</sup>

Solar Gardens is certified by Green-e® Energy. As part of this certification, we are required to provide you with detailed information about the product, including this Product Content Label.

When enrolled, participants will have the option to subscribe to 150 or 500 watt blocks up to their maximum annual electric usage. In 2025, Solar Gardens will be made up of the following renewable resources.

### Green-e® Energy Certified New<sup>2</sup> Renewable Source

	2025 Prospective	Generation Location
Solar	100%	Allendale, MI Kalamazoo, MI Cadillac, MI
<b>TOTAL</b>	<b>100%</b>	

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the RECs you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

For comparison, Consumers Energy's electric fuel mix includes: Coal (21.4%), Nuclear (5.2%), Oil (0.1%), Natural Gas (60.9%), Hydroelectric (1.2%), Wind (6.5%), Solar (1.8%) and Renewable Fuels (2.9%). This resource mix was prepared in accordance with Consumers Energy [Consumers Energy Fuel Mix](#)

The average home in Consumers Energy's service territory uses 603 kWh per month. Source: U.S. EIA, 2023

### Price, Terms, and Conditions

<b>Company</b>	Consumers Energy
<b>How much does it cost?</b>	Participants can select how much renewable energy they would like to subscribe to. They will be charged a fixed subscription fee based on the subscription option and subscription level that is chosen. The two options available for the program include MicroBlocks and SolarBlocks. A SolarBlock is the equivalent of 500 watts of solar energy and costs \$8 for every SolarBlock subscribed. A MicroBlock is 30% of a SolarBlock, or 150 watts, and costs \$2.40 for every MicroBlock subscribed. A participant may subscribe to more than one SolarBlock or MicroBlock, however, the total blocks subscribed shall not exceed the participant's Annual Net Usage.
<b>Will my subscription costs change over time?</b>	Your subscription fee will remain fixed for the duration that you are enrolled in the program. However, the bill credit you receive will vary monthly due to changes in the market value of renewable energy.
<b>What happens if I move?</b>	If you move within Consumers Energy's electric service territory, your enrollment in the program will move with you. If you move out of Consumers Energy's electric service territory, your subscription will be canceled and there is no penalty.
<b>Can I cancel participation in the program?</b>	Yes, the program is optional and after the initial 12-month commitment customers can cancel with no penalty.
<b>Where can I go for more information?</b>	For more program information, contact us at <a href="mailto:SolarGardens@cmsenergy.com">SolarGardens@cmsenergy.com</a> or visit <a href="http://consumersenergy.com/solargardens">consumersenergy.com/solargardens</a> .

For all non-residential customers, participation at any level is Green-e® Energy certified. For residential customers, participation at or above the 25% level is Green-e® certified, and participation below 25% is **not** Green-e® certified. Learn more about minimum requirements for certification at Green-e® at [www.green-e.org](http://www.green-e.org) [[green-e.org](http://www.green-e.org)].

For all customers, participation commitments of more than 15 years are **not** Green-e® certified. Learn more about minimum requirements for certification at Green-e® at [www.green-e.org](http://www.green-e.org) [[green-e.org](http://www.green-e.org)].
